Dear Parents and Guardians:

Moscow School District will hold the class of 2010 graduation commencement at the Kibbie Dome on the campus of the University of Idaho on June 11, 2010, at 7:30 PM. I would like to invite you to this celebration of completion and success for our graduates. It is free to the entire community. The Kibbie Dome is a wonderful venue for our ceremony and most importantly can easily seat as many parents, relatives and community members who want to join in the commencement celebration. The class of 2010 has filled us all with so many positive experiences and the graduation will be a fulfilling conclusion to all the successes that they have accumulated. They are an outstanding group of young adults and I am honored to have been their principal during their high school years. Mark your calendars for the graduation celebration of the class of 2010.

I want to thank you for the tremendous support you have given the staff, students and administration at Moscow High School this year. It is a privilege to work with the students and staff at Moscow High School because it is an outstanding school providing great opportunities for our students.

Respectfully Submitted,

Bob Celebrezze
Principal

Moscow High School students Leo Goetsch and Doug Long discuss the finer points of personal budget management with a student from the University of Idaho's School of Family and Consumer Science (FACS).

Students in Mr. Brandt's Applied Math class had the opportunity to work with several students from the University of Idaho's School of Family and Consumer Science (FACS). The goal of the collaborative effort between Moscow High School and FACS was to help high school students realize the challenges of personal finance. For example, what is involved in saving for, buying and maintaining a car? What are some of the things that you have to budget for on a monthly basis once you are living on your own? The sessions were very enjoyable and enlightening. Special thanks go out to Prof. Nancy Deringer and her students.

Moscow High School students Chris Lopez, Jake McConnell and Katye Mylar discuss the pros and cons of getting a loan to buy a car with students from the University of Idaho's School of Family and Consumer Science (FACS).

Senior US Government News

Every year after following the work of the Idaho Legislature we embark on a 5 week simulation known as MHS Mock Legislature where students write bills (at least 2 each), hold committee hearings, practice Roberts Rules and go through the steps of making bills into laws. To this end the students elect their own leadership and it is those folks who guide everyone through this detailed process. To accommodate our class schedule this year we have 3 separate legislatures with one of them modified to provide for a 2-period Senate. There are 2 established parties (White and Blue) in each class period and each developed party contracts in their caucus meetings to focus their vision for this session. .
