

You make me laugh!!

Humor is an important part of life – it entertains us, helps us cope and can build positive relationships and memories.

In this **GUYS READ** collection of short stories, **Funny Business**, you will find plenty of humorous stories that will provide some comic relief and tickle your funny bone!

If you have siblings at home, you will definitely be able to relate to the hilarious stories, *Artemis Begins* and *Unaccompanied Minors*. The clever tactics of sibling interaction may sound familiar or even give you some good ideas 😊

One of my favorites, *Kid Appeal*, tells a laugh-out-loud story of a school project gone terribly wrong. And the story, *A Fistful of Feathers*, presents a darker side of humor with a twist – a homicidal turkey!

Try this book today and see which of the stories become your favorites and then share them with your family and friends! And just for fun -
