CURRICULUM GUIDE
Subject/Course: Physical Education
Grades 9-12

Students are expected to know content and apply skills from previous grades.

Standard 1: Skilled Movement

Students develop the movement/physical skills needed to participate in physical activities at a competent or advanced level. Students, as competent movers, have the ability to independently and safely participate in an activity and maintain a level of continuity that makes participation enjoyable. Students have the ability to apply complex skills and strategies to consistent performance of a physical activity in a regulation form, rather than modified forms of the activity.

<i>Goal – The student will:</i>	<i>Objectives (to be reached by the end of twelfth grade)</i>	<i>Samples of Applications</i>	<i>Curriculum Materials (including technological resources)</i>	<i>Key Vocabulary for Standard 1</i>

Standard 2: Movement Knowledge

Students have developed sufficient knowledge and ability to independently acquire new skills while continuing to refine existing ones. Students independently and routinely use a wide variety of increasing complex concepts. Students include application of concepts from disciplines such as motor learning and behavior, sport psychology and sociology, biomechanics, and exercise physiology.

<i>Goal – The student will:</i>	<i>Objectives (to be reached by the end of twelfth grade)</i>	<i>Samples of Applications</i>	<i>Curriculum Materials (including technological resources)</i>	<i>Key Vocabulary for Standard 2</i>
Goal 2.1: Demonstrate understanding movement concepts, principles, strategies and tactics as they apply to the learning and performance of physical activities.	<ul style="list-style-type: none"> 9-12.PE.2.1.1 Know and understand pertinent scientifically based information regarding movement performance. 9-12.PE.2.1.2 Apply advanced movement-specific information to physical activity. 9-12.PE.2.1.3 Integrate discipline-specific knowledge to enable the independent learning of movement skills. 	<ul style="list-style-type: none"> Knowing target heart rate zone and moving at a rate to stay in it for 20-30 minutes. Design and develop a long term plan for self improvement in “golf” to achieve a desire level of skillfulness. 	<ul style="list-style-type: none"> Pulse stick Heart rate monitors 	

Standard 3: Physically Active Lifestyle

Students transfer what they have learned in physical education to the development and maintenance of a healthy lifestyle outside of class that includes daily participation in physical activity. Students choose between those activities that are and are not personally meaningful and accessible based on personal interests and capabilities.

<i>Goal – The student will:</i>	<i>Objectives (to be reached by the end of twelfth grade)</i>	<i>Samples of Applications</i>	<i>Curriculum Materials (including technological resources)</i>	<i>Key Vocabulary for Standard 3</i>

Standard 4: Personal Fitness

Students independently achieve, assess and maintain personal health-related fitness goals and are motivated to do so. Students utilize basic principles of training to design personal fitness and physical activity programs that encompass all components of health-related fitness. Components include cardio respiratory endurance, muscular strength and endurance, flexibility and body composition.
